

Daily Changes Summary Report

Summary of design, copy, and structural updates applied today (Sep 12, 2026)

1. Page Structure & Ordering

- Reordered Sections: Moved "How We Build Your Pipeline" higher up, directly below the Trust & Stats strip.
- Removed Guarantee Section: Deleted the standalone guarantee section to streamline user reading flow.

2. Plain Language & Jargon Removal

- Simplified Vocabulary: Removed complex corporate terms (SLA, institutional, diligence engine, call recording).
- Direct Headings: Renamed sections with clear plain titles ("The Problem", "Who We Work With", "Our Process").

3. Updated Metrics & Stats

- Brokers Served: Updated sitewide counter from "100+" to "60+".
- Average Commission: Updated standard deal commission benchmark to "\$50,000+".
- Testimonial Quote: Updated client quote (David Reynolds) to focus on pipeline visibility and tracking.

4. Pricing & Calculator Updates

- Basic Plan: Updated to \$1,500/mo (\$500K-\$3M revenue target) with transparent inclusions.
- Pro Plan: Updated to \$2,500/mo (\$1M-\$20M revenue target) and restyled with a clean, light aesthetic.
- Pay As You Go: Added flexible tier placeholder for custom client requirements.
- ROI Calculator: Lightened the right results panel to white/light slate for better visual balance.

5. AI Images Replaced with UI Graphics

- Hero Section: Replaced photo with a static, executive Pipeline Calendar & Trend Graphs dashboard.
- Differentiators: Converted to 3 equal-height cards with clear verification checklists and no images.
- Problem & Qualifier: Replaced stock photos with structured data cards, workweek breakdown, and vector badges.
- Testimonials & FAQ: Replaced AI avatars and mock dashboard with clean initials monograms and SVG icons.

Current Status & Delivery

All updates tested, Next.js build verified with 0 errors, and committed & pushed to GitHub main branch.
